Private consultant psychiatrist opportunities in Western Australia

Want to take the next exciting step in private practice with a mental health industry leader? We are now accepting applications for **consultant psychiatrist positions** at Abbotsford Private Hospital and Marian Centre – **two private mental health hospitals in the Aurora Healthcare portfolio.**

Abbotsford Private Hospital and Marian Centre are part of the Aurora Healthcare group. With 1,000 beds across 16 hospitals and community services in Australia's major cities and key regional areas, Aurora Healthcare is the nation's leading provider of mental health services.

Abbotsford Private Hospital

30-bed private mental health facility and Western Australia's only dedicated private inpatient hospital for the treatment of dual diagnosis (addictions and mental health). Scheduled for completion mid 2022, the upcoming hospital redevelopment will see bed total increase to 77 beds.

Marian Centre

69-bed private acute mental health facility providing expert care in the management and treatment of acute mental health disorders.

As part of the Aurora Healthcare Group, Abbotsford Private Hospital and Marian Centre are committed to building supportive working environments for its psychiatrists.

Consulting rooms are available within close proximity to the hospitals, allowing efficiencies between outpatient consultations and inpatient reviews.

Abbotsford Private Hospital and Marian Centre offer a combination of the very best treatment options, the highest level of patient care, integrated inpatient programs and peer support and supervision with colleague psychiatrists as well as professional development opportunities.

Patients are admitted both voluntarily under the care of a psychiatrist, supported by a team of highly trained nurses, psychologists and other allied health professionals and diversional therapists.

Working at Aurora Healthcare

What are the advantages of working in private practice?

- Financial returns
- Autonomy
